She enjoys working with and mentoring young professionals and offers the following advice: a) If you don't go after what you want you will never have it, b) If you don't ask, the answer will always be no and c) If you don't step forward you will always be in the same place! Cathy earned her Master's Degree in Business Administration from Stanford University and also has degrees in Mathematics, Economics and Chemistry.

She believes the most important gifts to be given are time, love, and attention to her family (husband Gary and children Briana & David) as life goes by way too fast!
